

MANAN UPPAL

Gurgaon, India | mananuppal14@gmail.com | +91 9996335599 | linkedin.com/in/manan-uppal-7bb5b433b

PROFESSIONAL SUMMARY

Associate Product Manager with 4+ years of experience across consumer mobile products, enterprise AI/ML delivery, and B2B SaaS go-to-market. Proven track record in product roadmapping, PRD development, user story mapping, and cross-functional stakeholder management. Hands-on experience with agentic AI, LLM integration, Azure AI Foundry, and RAG pipelines. MBA from MDI Gurgaon (Tier 1). Targeting Product Manager and Management Trainee roles in consumer tech, fintech, and AI-first companies.

EDUCATION

Management Development Institute (MDI), Gurgaon | PGDM – Business Management | 2023–2025

Manipal University Jaipur | B.Tech – Computer Science Engineering | 2017–2021

EXPERIENCE

MAQ Software | Noida, India | 2025 – Present

Associate Project Manager

- **Product Roadmap & Vision:** Defined product vision and roadmap for internal AI-powered tools (agentic workflows, knowledge assistants); shipped iterative releases aligned to OKRs.
- **AI/ML Product Delivery:** Drove delivery of AI/ML initiatives on Azure AI Foundry, Azure Machine Learning, ADF, Databricks; wrote PRDs and user stories adopted by cross-functional engineering teams.
- **Discovery & Requirements:** Led 15–25 enterprise discovery calls per month; translated business pain points into structured PRDs reducing clarification cycles by 25–30%.
- **Agentic AI Product:** Defined requirements and roadmap for an agentic AI system for solar grid analysis — automated fault detection, performance monitoring, and LLM-driven yield optimisation.
- **Backlog & Stakeholder Management:** Synthesised feedback from 20+ enterprise clients into prioritised feature backlogs; influenced roadmap decisions resulting in quarterly product enhancements.
- **Go-To-Market & Growth:** Owned Microsoft Marketplace positioning (30–40% inbound growth); managed LinkedIn content strategy and 3–5 demand generation campaigns per quarter on dynamic 365 CRM improving lead quality 20–25%.
- **Handling End to End dynamic 365 CRM for the Company,** Improving overall sales funnel.
- **Demo-to-Conversion:** Improved demo-to-conversion ratio by 15% through structured solution narratives and pitch decks tailored to client segments.

Dilawari International | Delhi, India | Sept 2023 – Apr 2024

Web Developer

Feature Planning: Owned feature prioritisation for the company's first iOS app aligned to business objectives; conducted competitive analysis informing the product roadmap.

- **SEO & Performance:** Improved organic traffic by 25% through platform optimisation; reduced load time by 40%.

Cricbuzz | Bengaluru, India | Apr 2022 – Aug 2023

Junior iOS Developer

- **Product Ownership:** Defined scope, roadmap, and feature priorities for TVOS app from 0 to launch; managed cross-functional alignment across engineering, design, and backend.
- **A/B Testing & Experimentation:** Led News section redesign A/B test across 3 variants; shipped winning flow validated through user behaviour data, improving engagement and session depth.

- Monetisation: Drove 25% increase in ad revenue by owning monetisation strategy — audited ad formats and placements, prioritised high-impact changes with collaboration with google ads analytics team.
- Engagement Metrics: Improved DAU, session length, and navigation depth through data-informed layout and content hierarchy changes.
- Cross-functional Collaboration: Worked with UI/UX designers and product teams to enhance app features, resulting in a 0.7-star improvement in App Store ratings.

Dilawari International | Delhi, India | Aug 2021 – Mar 2022

Web Developer

- Web Development: Developed and maintained responsive websites using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and improving user interaction by 30%.
- Performance: Reduced page load speed by 40% through image compression, lazy loading, and asynchronous requests; managed database integration with MySQL reducing query execution time by 10%.

Intellimation.AI Software Limited | Jan 2021 – Aug 2021

Java Developer Intern

- Dashboard Development: Developed an AI automation dashboard platform to handle marginal call processes, automating and improving system efficiency and accuracy through solution design and process optimisation.
